ABSTRACT

This annual directory lists institutions in the United States and its outlying areas offering at least a 2-year program of college level studies in residence. The information presented for each institution includes the telephone area code and number, the address, the congressional district and county in which the institution is located, the identification code, the fall 1971 enrollment, undergraduate tuition and fees, sex of student body, calendar system, control or affiliation, highest level of offering, type of program, accreditation, and principal administrative officers. FOREWORD

This annual directory lists institutions in the United States and its outlying areas offering at least a 2-year program of college-level studies in residence. The requirements and criteria for listing in this directory are stated in detail in the introduction.

The information presented for each institution includes the telephone area code and number, the address (including the zip code), the congressional district and county in which the institution is located, the identification code, the fall 1971 enrollment, undergraduate tuition and fees, sex of student body (men, women, coed, or coordinate), calendar system, control or affiliation, highest level of offering, type of program, accreditation, and principal administrative officers.

Preparation of this publication was the joint effort of the Accreditation and Institutional Eligibility Staff (AIES) of the Bureau of Higher Education and the Higher Education Surveys Branch (HESB) of the National Center for Educational Statistics. AIES had sole responsibility for the certification of the eligibility of institutions for inclusion in this directory and for the accreditation reported herein; HESB, for all other aspects of the survey on which the publication is based. However, appreciation is expressed for the advice and counsel of AIES on all aspects of this project, from the preparation of the request for information to the final publication.

Appreciation is also expressed to officials of the institutions of higher education, whose responses made the directory possible, and to the coordinating officials of the State departments of education who assisted in the data collection and the resolution of inconsistencies.

Theodore H. Drews, Chief
Higher Education Surveys Branch

INTRODUCTION

CRITERIA FOR LISTING IN THIS DIRECTORY

This directory lists institutions in the United States and its outlying areas (American Samoa, Canal Zone, Guam, Puerto Rico, the Virgin Islands, and the Trust Territory of the Pacific Islands) that meet the following requirements: (1) They are legally authorized to offer and are offering at least a 2-year program of college-level studies in residence, (2) they have submitted the information required for listing, and (3) they meet one of the traditional criteria for listing as institutions of higher education.

The criteria for listing in the directory are as follows:

1. Institutions accredited by a nationally recognized accrediting agency or approved[1] by a State department of education or by a State university are eligible for inclusion.

2. Institutions that have attained a preaccredited status[2] with designated nationally recognized accrediting agencies are eligible for inclusion.

3. Institutions not meeting requirements of criterion 1 or 2 are eligible for inclusion if their credits have been and are accepted as though coming from an accredited institution by not fewer than three institutions accredited by nationally recognized accrediting agencies.

"College-level studies," as the term is used here, means a postsecondary program which (a) is wholly or principally creditable toward a baccalaureate degree and/or (b) terminates in an associate degree.

---

[1] This category includes those institutions designated as approved, accredited, recognized, or registered through State programs which include establishment of criteria, evaluation of institutions, publication of a list of institutions that meet the criteria, and periodic reviews for continued approval. It does not include institutions approved for obtaining or amending a charter, for training veterans, or for enrolling war orphans or foreign students.

[2] See definitions under "Preaccredited Status" on p. xi.

ACCREDITATION

The responsibility for the control or supervision of educational institutions in the United States is not concentrated at any single level of government or in any one public or private body or agency. Varying degrees of control are exercised by each State, but institutions of higher education operate with considerable autonomy and self-governance. Therefore, U. S. educational institutions vary widely in the character and quality of their programs.

A unique feature of U. S. educational practice is the device known as accreditation, which includes voluntary self-evaluation by a school and appraisal by a group of its peers. This process operates through State bodies and nationally recognized accrediting agencies and associations. These agencies or associations have established educational criteria to evaluate institutions in terms of their own objectives and to ascertain whether programs of educational quality are being maintained. They provide institutions with continued stimulus for improvement to insure that accreditation or accredited status may serve as an authentic index of educational quality.

The accrediting procedure consists of five steps: (1) establishment of criteria, (2) a self-evaluation study by the institution or the program seeking accreditation, (3) evaluation of the institution by competent authorities to determine whether it meets the established criteria, (4) publication of a list of institutions that meet the criteria, and (5) periodic reviews to ascertain whether accredited institutions continue to meet the criteria. Institutions that are accepted by an accrediting agency or association as meeting its criteria are said to be accredited or approved. One of the best available methods of ascertaining the general standing or quality of an institution of higher education in the United States is to examine its accreditation status.

Institutions with liberal arts and general programs and, in some cases, those with special programs may be accredited by one of six regional accrediting associations. Regional accreditation applies to the entire institution. It indicates that each constituent unit is achieving its own particular aims satisfactorily, although not necessarily all on the same level of quality. The regional associations are indicated throughout this directory by the following abbreviations:

> (Note: The symbol # preceding any of the following abbreviations indicates that the institution is provisionally accredited, accredited with some reservation, or approved on probation.)

E	New England Association of Colleges and Secondary Schools, Commission on Institutions of Higher Education
M	Middle States Association of Colleges and Secondary Schools, Commission on Higher Education
N	North Central Association of Colleges and Secondary Schools, Commission on Institutions of Higher Education
NW	Northwest Association of Secondary and Higher Schools, Commission on Higher Schools
S	Southern Association of Colleges and Schools, Commission on Colleges
W	Western Association of Schools and Colleges, Accrediting Commission for Senior Colleges and Universities, and Accrediting Commission for Junior Colleges

JE, JM, JN, JNW, JS, or JW indicates a 4-year college accredited by the regional association as a junior college.

Professional and specialized schools and programs are accredited by the following associations. The abbreviations are those used throughout the directory to represent accreditation by the appropriate organization.

ADNUR - National League for Nursing: associate degree program in nursing
ANEST - American Association of Nurse Anesthetists: nurse anesthesia
ARCH - National Architectural Accrediting Board: architecture
ART - National Association of Schools of Art, Committee on Admissions and Accreditation: art
AUD - American Speech and Hearing Association: audiology
BI - Accrediting Association of Bible Colleges: Bible
BUS - American Association of Collegiate Schools of Business: business
CHEM - American Chemical Society, Committee on Professional Training: chemistry
CLPSY - American Psychological Association: clinical psychology
COPSY - American Psychological Association: counseling psychology
DA)
DENT) - American Dental Association, Council on Dental Education:
DH) dental assistant, dentistry, dental hygiene, dental
DT) laboratory technician
ENG - Engineers Council for Professional Development: engineering

FOR - Society of American Foresters: forestry

HA - Accrediting Commission on Graduate Programs in Hospital Administration: hospital administration

JOUR - American Council on Education for Journalism, Accrediting Committee: journalism

JRCB - Accrediting Commission for Business Schools: junior college of business

LAW - American Bar Association, Section of Legal Education and Admissions to the Bar: law

LIB - American Library Association, Committee on Accreditation: librarianship

MED) - American Medical Association and Association of American
MED-B) Medical Colleges, Liaison Committee on Medical Education: medicine, basic medical science

MLT - Accrediting Bureau of Medical Laboratory Schools: medical laboratory technician

MRL) - American Medical Association, Council on Medical Education:
MRT) medical record librarian (also known as medical records
MT) administrator), medical record technican, medical technology

MUS - National Association of Schools of Music: music

NUR - National League for Nursing: baccalaureate and higher degree programs in nursing

OPT - American Optometric Association, Council on Optometric Education: optometry

OSTEO - American Osteopathic Association: osteopathy

OT - AMA, Council on Medical Education: occupational therapy

PHAR - American Council on Pharmaceutical Education: pharmacy

PH - American Public Health Association: public health

POD - American Podiatry Association, Council on Education: podiatry

PT - AMA, Council on Medical Education: physical therapy

SP - American Speech and Hearing Association: speech pathology

SRCB - Accrediting Commission for Business Schools: senior college of business

SW - Council on Social Work Education, Commission on Accreditation: graduate social work

TECH - Engineers Council for Professional Development: engineering technology (2-year program)

TED - National Council for Accreditation of Teacher Education: teacher education

THEOL - American Association of Theological Schools: theology

VET - American Veterinary Medical Association, Council on Education: veterinary medicine

XT - AMA, Council on Medical Education: radiologic technology

The U. S. Office of Education does not accredit, recommend, or approve any school or educational institution.

Institutions qualifying on the basis of State approval or accreditation and those meeting either criterion 2 or 3 shown on page vii are carried without symbols designating these categories.

> Note: Addresses of the accrediting associations listed above can be found in appendix F.

PREACCREDITED STATUS

One customary route for institutions seeking regional accreditation is to pass through two preliminary stages known as correspondent and recognized candidate for accreditation. These specialized terms are defined as:

> Correspondent. The classification given to a collegiate institution, not necessarily yet in operation, which has indicated its intent to work toward accreditation and which, having provided evidence of sound planning and the resources to implement these plans, appears to have the potential for attaining this goal within a reasonable time. Correspondent status is not accreditation nor does it assure or even imply eventual accreditation.
>
> Recognized Candidate for Accreditation. The classification given to a fully operative collegiate institution which, as attested to by a higher education commission of a regional accrediting agency, appears to be offering students, on at least a minimally satisfactory level, the educational opportunities implied by its objectives. In the commission's view the institution's organization, structure, and staffing are acceptable for its stage of development; its sponsors are committed to supplying its needs and are able to do so; its governing board is functioning properly; and its academic and financial plans are well designed. Candidacy is not accreditation. It indicates that an institution is progressing steadily and properly toward accreditation but does not assure or even imply eventual accreditation.

Professional accrediting agencies that grant preaccredited status use varying terminology to represent satisfactory assurance of the institution's ability to achieve accreditation status within a reasonable time.

ARRANGEMENT OF DATA

Generally, institutions are listed alphabetically under the States in which they are located. A branch of an institution is listed as a unit following the parent institution. When there are two or more branches, the branches are listed alphabetically. When an institution is comprised of two or more campuses reporting directly to the central administration, the campuses are listed in alphabetical order. Generally, components of multicampus institutions are subsumed under a "central office." Thus, an identification code, as well as a name and address, is provided for the institution as a whole in addition to the individual campuses. Most multicampus institutions reported information on the overall administrative staff; but when this was not done, the name of the chief administrative officer of the institution (such as the president or chancellor) and his business address are listed.

In all surveys and publications related to the Higher Education General Information Survey (HEGIS), institutional systems, multicampus institutions, main campuses, and branch campuses are defined as follows:

> Institutional System. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.
>
> Multicampus Institution. An organization bearing resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses attached to it.
>
> Main Campus. In those institutions consisting of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office of such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.
>
> Branch Campus. A campus of an institution of higher education which is organized on a relatively permanent basis (i. e., has a relatively permanent administration), which offers an organized program or

programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. Being in a community different from that of the parent institution means that a branch is located beyond a reasonable commuting distance from the main campus of the parent institution.

Institutions that are part of a system are grouped alphabetically immediately following the name and administrative staff of the system. If a system requested an order other than an alphabetical listing, the request was honored. For example, a system that has universities, 4-year colleges, and junior colleges may have requested an alphabetical listing within each level of institution. Five asterisks (*****) separate a system of institutions of a multicampus institution from the preceding institution in the alphabetical listing; and a broken line, from the next institution in the listing.

EXPLANATION OF DATA

FICE Code

The Federal Interagency Committee on Education (FICE) code is listed for each institution. This is an unstructured number that is unique for each institution. Except as indicated below, it will remain as the institutional identification number for the life of the institution; and should the institution cease to exist, the number will be inactivated.

The primary utility of the FICE code is the precise identification of a particular institution of higher education. In addition to this primary use, it also has another use. For purposes of computer records and processing, a FICE code is assigned to the aggregate or totality of a multicampus institution or an institutional system. This FICE code number is known (somewhat imprecisely) as the "all-campus" number for a multicampus institution or the "all-institution" number for an institutional system. This number permits the National Center for Educational Statistics, in the analysis of data, to code the aggregate data for multicampus institutions or systems of institutions. A list of these aggregates and the FICE code for each of them is listed in appendix J.

There are apparent, but not real, exceptions to the immutability of the FICE codes. These apparent exceptions occur when institutions acquire or establish new branches, when established branches are closed or lose branch status, or when institutions are assembled into new systems. Some examples of these exceptions follow:

1. An institution has a remotely located component that for many years it did not consider a branch. Now it accords a separate identity as a branch to this component. A new FICE code now is given to the main campus; a new FICE code, to the branch; and the old FICE code, a new identity as the "all-campus" code for the total entity. In this way, the historical consistency of the statistical data filed by FICE code is maximized.

2. An institution acquires a newly developed and established branch. The old name of the institution now applies both to the old institution and to its new branch. The old FICE code is now used to designate the main campus (which is actually the quantitative successor to the old institution); but new FICE codes are assigned to each of the following: the branch, the central office, and the institutional "all-campus" aggregate.

3. An institution closes an established branch. The main campus, which will now be a single institution, retains its FICE code number. However, if an established branch loses branch status but is still a component, the now single-campus institution assumes the "all-campus" FICE code number.

4. A previously independent institution becomes part of a newly organized system which contains a number of institutions, and the system assumes the name of the previously independent institution. If an analysis of the change demonstrates that historical consistency of statistics will not be served by preserving old FICE numbers, some units and aggregates of this new system will receive totally new FICE numbers, and the old number of the institution will not be used to identify the new system. This will appear to be a change in FICE code; but actually it is not, since the name now describes a new and different entity. On the other hand, if historical consistency and understanding of the data would be served by preservation of the old FICE code, it may be preserved by having it now designate that part of the system that previously had the old name.

Enrollment

The total enrollment of students in each institution or, in the case of multicampus institutions, in each component is given as of fall 1971. Undergraduate and graduate, resident and extension, and full-time and part-time students are included in the enrollment reported. Excluded are students in noncredit adult education courses; students taking courses at home by correspondence, radio, or television; students enrolled only for "short courses"; auditors; students studying abroad; and students enrolled at a branch campus or extension center of an American institution in a foreign country.

The total enrollment for an institution shown in this directory may differ from the figure presented in the opening fall enrollment publications. The opening fall figure is reported early in the fall term, and respondents are asked to include estimates for any group of students that should be included but for which an actual count is not available. The fall 1971 enrollment figure used in the directory was reported in 1972.

An advance enrollment figure for fall 1972 was obtained for those institutions that were not included in the directory in 1971. Institutions that have obtained preaccredited status but were not offering classes in fall 1972 are listed in appendix A.

Differences Between the Present Directory and the 1971-72 Edition

An item of information not previously included is presented in the listings of this edition of the directory. This item is the "Undergraduate Tuition and Required Fees." The figures used for public institutions are the tuition and required fees paid by in-State students. There will be a separate publication showing tuition for out-of-State and graduate students in addition to room and board charges.

Student Body

The sex designation for the student body of each institution or campus included in the directory is shown as men, women, coeducational, or coordinate (separate colleges for men and for women) as reported by the institution.

Several institutions, traditionally for men only or for women only and so listed in the directory, indicated on their reports that, although their enrollments were almost all of one sex, they had an open-door policy for students of either sex. A few added the phrase, "on a commuting basis only." Several noted that the reported enrollment included a given number of men or women day students.

Calendar System

The calendar system on which each institution or campus operates is reported as quarter, semester, trimester, 4-1-4 (months) plan, or "other." Any other calendar system not classifiable as quarter, semester, trimester, or the 4-1-4 plan, is designated "other."

Control or Affiliation

The control or affiliation of each institution is recorded as reported by the institution. Public institutions are those under Federal, State, State-related, local, or State and local control. Private institutions are reported as independent, nonprofit; organized as profitmaking; or affiliated with a religious group. Provision was made for reporting affiliation with 71 religious groups, and an "other" category was provided for affiliation not covered by the specific groups named.

Categories of control or affiliation used are:

Control

Public

Federal
State
Local
State and local
State-related

Private

Highest Level of Offering

The following categories have been established to designate institutions by highest level of offering:

Two but less than 4 years--refers to at least 2 but less than 4 years beyond 12th grade; includes junior colleges, community colleges, technical institutes, and normal schools offering at least a 2-year program of college-level studies, either leading to an associate degree or wholly or principally creditable toward a baccalaureate degree.

Four- or 5-year baccalaureate--includes those institutions offering programs of studies leading to the customary bachelor of arts or bachelor of science degree, requiring at least 4 but less than 6 years.

First-professional degree--includes those institutions that offer the academic requirements for selected professions based on programs that require at least 2 academic years of previous college work for entrance and a total of at least 6 years of college work for completion; e. g., medicine (M. D.), law (LL. B., J. D.), theology (B. D.), dentistry (D. D. S.), veterinary medicine (D. V. M.).

Master's--includes those institutions offering the customary first graduate degree, master of arts or master of science degree in the liberal arts and sciences, or the next degree in the same field after the first-professional degree; e. g., Master of Science in Surgery (M. S. in Surgery), Master of Law (LL. M.), and Master of Science in Dentistry (M. S. D.).

Beyond master's but less than doctorate--includes those institutions offering "postgraduate predoctoral degrees"; e. g., Civil Engineer, Electrical Engineer, Specialist in Education.

Doctorate--includes those institutions offering the Ph. D. or its equivalent in any field; e. g., Doctor of Education, Doctor of Juridical Science, Doctor of Public Health.

Undergraduate non-degree-granting--includes those institutions offering at least 4 years of undergraduate work but not conferring a bachelor's degree. Such institutions may give diplomas, certificates of completion, or similar awards.

Graduate non-degree-granting--includes institutions offering work beyond the bachelor's level but not conferring degrees. In some instances, the degrees are conferred by cooperating institutions.

Postdoctoral research only--includes institutions operating solely for the purpose of research at the postdoctoral (post-Ph. D. or equivalent) level.

Type of Program

The designations of the types of programs are explained below:

Terminal-occupational below bachelor's--refers to programs of at least 1 but less than 4 years beyond high school designed to provide students with knowledge and skills necessary for immediate employment but for which credits are not ordinarily acceptable toward baccalaureate degree programs.

Two-year principally bachelor's creditable--refers to the first 2 years of college work; i. e., the equivalent of the freshman and sophomore years or the lower division of a bachelor's degree program. Such a program may be general or preprofessional; it may serve as the first 2 basic years of a bachelor's degree in a liberal arts program, in a teacher preparatory program, or in a professional program.

Liberal arts and general--refers to 4- or 5-year baccalaureate or postbaccalaureate degree programs in the liberal arts and sciences. It may also include preprofessional programs (such as prelaw, prelibrary science, pre-social work, and premedicine).

Teacher preparatory programs--as used here, must be of at least 4 years' duration.

Professional programs--as used here, are separate programs of at least 4 years beyond high school, outside liberal arts and general, and organized around a professionally oriented academic discipline. Included are 4- or 5-year degree programs in agriculture, business administration, engineering, etc., as well as those programs leading to the 6-year-or-more first-professional degree defined in the section on highest level of offering.

Administrative Officers

The instructions that accompanied the survey form requested institutions to list only their chief administrative officers, i.e., to limit the list of staff members to key persons. If two or more positions are concerned with the same area of responsibility (for example, a business manager and comptroller, or a treasurer and comptroller), institutions were asked to list only the higher position. If one person performs more than one function, he or she should be listed only once, in the most important function or in a combination of functions (such as registrar and admissions officer). The only instance in which a person should be listed twice is when a chief administrative officer serves also as the dean of a school or college.

It was requested that assistant directors, department heads, administrative assistants, directors of residence halls, and directors of athletics not be listed. If reported, they were deleted. The only exception was for assistant directors in some 2-year institutions that reported the chief administrative officer as director and all other officers as assistant directors for specific functions.

Assistant deans reported were retained if their functions were not duplicated. For example, a number of institutions reported a dean of students and, in addition, the dean of women as assistant dean or assistant dean of women. Also, some institutions reported one of their chief administrative officers as dean of the college and all other administrative deans as assistants with specific functions, such as assistant dean for student affairs. Assistant deans were deleted if the function was duplicated. For example, when both a dean and an assistant dean of the college of arts and sciences were reported, the assistant dean was deleted.

The instructions for the survey form stipulated that vacant positions be omitted except for key positions such as president, vice president, business officer, dean, registrar, or librarian. When other than the usual key positions were reported as vacant, they are not listed.

Deans of schools and colleges within an institution are shown after the administrative officers, except when an institution requested a different order or rank-sequence.

METHODOLOGY

The request for information to be published in this directory was included in the Higher Education General Information Survey (HEGIS) package mailed to institutions of higher education, or to State agencies that cooperate with the Office of Education in data collection, in May 1972. Copies of the form "Institutional Characteristics of Colleges and Universities" were included in the packages sent to those institutions that had not been listed in the directory in the previous year. Institutions included in the directory the previous year received a computer printout of their information, with the request that it be updated for 1972-73.

The National Center for Educational Statistics has a cooperative data-collection arrangement with 30 States. In 22 of these States, State officials handle mail-out and data collection for all institutions; in two States, for selected institutions. In the other six States, an extra copy of each form to be completed and mailed to the State department of education is included in the package mailed to each institution. This cooperative arrangement reduces the number of requests for data made upon the institutions and improves the response rate for the various portions of the package. Inconsistencies in the completed reports were resolved by contacting the State coordinating officials who in turn contacted the institutions when necessary.

Institutions were requested to supply the information not later than July 15, 1972. However, because some institutions were unable to provide the information earlier, data collection was not completed until September 13, 1972. Institutions not previously included that had applied for directory listing and that had already filed institutional characteristics information are included if they were certified as eligible for listing at any time prior to the closeout of data collection on September 13, 1972.

Each completed report was sent to the Accreditation and Institutional Eligibility Staff (AIES) of the Bureau of Higher Education of the U. S. Office of Education for certification of the institution's eligibility for listing in the directory and for verification of the accreditation reported.

Only those institutions certified by AIES as eligible for listing, i. e., certified as meeting at least one of the criteria specified on page vii of this publication, are included.

ABBREVIATIONS

Names of institutions were limited to 25 letters or spaces. For a few institutions, such as the rabbinical academies, it was impossible to use the standard abbreviations within this limitation. When this happened, the institutions were requested to abbreviate their own names as they would like them to appear.

Functional titles of administrative officers were spelled out whenever possible within the 30 letters or spaces allowed. The abbreviations used are listed in appendix I.

Table 1.--Number of institutions of higher education, by highest level of offering, control of institution, and State or other area: Aggregate United States, 1972-73
[Includes the 6 institutions listed in appendix A]

D. BOARD *(for the academic year)*	8	
DAYS PER WEEK FOR WHICH BOARD CHARGE IS APPLICABLE *(check one)*	9	☐ 5 ☐ 6 ☐ 7

INSTRUCTIONS

1. It is recognized that tuition and required fees and room and board charges are not the same for all students at an institution. Therefore, in selecting the single figure that will be most appropriately representative of your institution and comparable to other institutions, please be guided by the following:

a. Include all fixed sum charges which are REQUIRED of such a large proportion of all students that the student who does not pay the charge is an exception. If the amount varies depending upon the class level of the student, subject matter major, the courses taken, etc., estimate the typical or modal amount for charges which are required.

b. Do not include any charges which are clearly optional.

2. Report charges for the academic year. The academic year is the period of the regular session, generally extending from September to June, usually divided into 2 semesters, 3 quarters, or 2 trimesters.

3. If the institution has a single lump-sum charge for tuition, required fees, room, and board, please apportion the lump-sum charges among the appropriate categories.

TUITION AND REQUIRED FEES

ITEM A. Undergraduate students are those who have not obtained a bachelor's degree: (1) all students in bachelor's degree programs which require at least 4 years but fewer than 6 years of college work; and (2) all students in occupational or general study programs which require 1, 2, or 3 years of college work and which are designated to prepare for immediate employment, or to provide general education rather than as the first 1, 2, or 3 years of a bachelor's degree program.

ITEM B. Graduate students are those who have attained at least one standard bachelor's degree or first-professional degree and are or could be candidates for master's or doctor's degrees. They do NOT include candidates for the degrees of DSC, Pod.D, DDS, DMD, MD, OD, DO, DVM, LLB, JD, BD, or other first-professional degrees.

ROOM AND BOARD CHARGES

ITEM C. Report as room charge *(academic year)* the modal charge to a typical student sharing a room with one other student.

ITEM D. Report as the board charge *(academic year)* the modal charge to a typical student. Please check the number of days per week for which the board charges are applicable *(5, 6, or 7)*.

If your institution makes a combined charge for room and board, please make an estimate of the proportions of the total charge to each of the categories.

APPENDIX J

1. "All-Campus" FICE Codes

ALABAMA

Auburn University, Auburn. 008695
Troy State University, Troy. 008696

ALASKA

University of Alaska, Fairbanks. 008698

ARKANSAS

Arkansas State University, State University. 008701
Harding College, Searcy. 001097
University of Arkansas, Fayetteville. 008703

CALIFORNIA

American Baptist Seminary of the West, Berkeley. 009116
California School of Professional Psychology, San Francisco. 010302
San Diego Community Colleges, San Diego. 001274
University of California, Berkeley. 008715
West Coast University, Los Angeles. 008716

COLORADO

Colorado Mountain College, Glenwood Springs. 009007
Community College of Denver, Denver. 009758
University of Colorado, Boulder. 008717

CONNECTICUT

University of Connecticut, Storrs. 008718

DELAWARE

Delaware Technical and Community College, Dover. 009050

FLORIDA

Jones College, Jacksonville. 008719

GEORGIA

Georgia Institute of Technology, Atlanta. 008723
Mercer University, Macon. 008724

ILLINOIS

Black Hawk College, Moline. 008726
City Colleges of Chicago, Chicago. 008727
National College of Education, Evanston. 010269
Southern Illinois University, Carbondale. 008728
University of Illinois, Urbana. 008729

1. "All-Campus" FICE Codes--Continued

INDIANA
Indiana State University, Terre Haute. 001807
Indiana University, Bloomington. 008731
Indiana Vocational Technical College, Indianapolis. 008546
Purdue University, Lafayette. 008732
Saint Joseph College, Rensselaer. 008733

IOWA
Des Moines Area Community College, Ankeny. 008735
Eastern Iowa District Community College, Davenport. 008737
Indian Hills Community College, Ottumwa. 008736
Iowa Central Community College, Fort Dodge. 008738
Iowa Lakes Community College, Estherville. 001864
Iowa Western Community College, Council Bluffs. 008739
Southeastern Community College, Burlington. 008740

KENTUCKY
University of Kentucky, Lexington. 008744

LOUISIANA
Louisiana State University, Baton Rouge. 008745
Southern University Agricultural and Mechanical College, Baton Rouge. 002025

MAINE
University of Maine, Portland. 008746

MARYLAND
Montgomery College, Rockville. 008748
Saint John's College, Annapolis. 008749
University of Maryland, College Park. 009553

MASSACHUSETTS
Aquinas Junior College of Business, Milton. 008975
University of Massachusetts, Boston. 008755

MICHIGAN
Macomb County Community College, Warren. 008319
Northwood Institute, Midland. 008759
Oakland Community College, Bloomfield Hills. 008760
University of Michigan, Ann Arbor. 009091

MINNESOTA
Bethel College and Seminary, Saint Paul. 009060
University of Minnesota, Minneapolis. 008761

1. "All-Campus" FICE Codes - Continued

MISSISSIPPI

Mississippi Gulf Coast Junior College, Perkinston. 008763
University of Mississippi, University. 008764

MISSOURI

Missouri Baptist College, Saint Louis. 009090
Saint Louis City and Saint Louis District Junior Colleges, Saint Louis. 008987
Saint Louis University, Saint Louis. 008766
University of Missouri, Columbia. 008767

NEBRASKA

University of Nebraska, Lincoln. 008768
